Full name	Telephone number	Personal identity number
Employer/school or college	Work telephone number	Telephone number

Spouse (not guardian) (fill in income on the back if cohabiting)

Full name	Telephone number	Personal identity number
Employer/school or college	Work telephone number	Telephone number

What is household?

Household refers to single people or people living together. People who are either married to each other or live together at the same civil registration address are counted as living together. The rules mean that two incomes must be declared even if the person who is the partner/spouse of the guardian is not the biological parent of the child.

The joint gross income of the household is the basis for the fee

Gross income includes the entire earned income of a guardian, cohabitant and family home or other taxable person as well as allowances and grants:

State gross income here (Annual income/12 months)	Guardian 1 SEK/month	Guardian 2 SEK/month	Cohabitees SEK/month
Total gross income per month:	=	=	=
Income applies from (date):			

Children and education reserves the right to check submitted income information.

As the child's guardian lives together, both have joint payment responsibility.

Date	Guardian 1 signature	Guardian 2 or cohabitees signature

The information you provide, as well as possibly such information that comes from the national registration authority, will be entered into a database, so that the municipality can use the information for purchase location and fee billing. The data will be processed in accordance with the provisions of the data protection regulation. Read about how Uddevalla municipality handles personal data at uddevalla.se/persondata
